

# CMOS Virtual Career Panel

The CMOS Student Committee is holding an open discussion on careers in meteorology and oceanography on **Thursday, March 14th from 1-2 pm ET**, we hope to see you there!

Go to the link below or scan the QR code to Join: <https://bit.ly/3wrhazm>

## Shannon Nudds

Shannon is the vice-president of CMOS and works for DFO at the Bedford Institute of Oceanography where she is a project coordinator for the Barrow Strait Monitoring Program.

## Dr. Matthew Asplin

Dr. Matthew Asplin is Director, Metocean and Arctic Strategic Partnerships at ASL Environmental Sciences Inc. in Victoria, B.C where he handles marketing for consulting services business development, and senior management duties. Matthew is also the Chair of the Vancouver Island CMOS Center.

## Dominique Paquin

Dominique works for Ouranos, a consortium on regional climatology and adaptation to climate change. She contributed to the development of the Canadian Regional Climate Model (CRCM) and studied the impacts of climate change on numerous phenomena such as freezing rain or snowstorms.

## Nikolay Damyanov

Nikolay has spent 12 years working for WSP, becoming a lead in 2017 and the Weather Operations Manager in 2020, overseeing a team of approximately 20 operational meteorologists.
